1. The drawings are objected to because the figures 5, * and % on the organic layers in Figs. 3A, etc. are unidentified in the specification and should be removed from the figures. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The disclosure is objected to because of the following informalities:

- The status of the parent application, mentioned on page 1 should be updated.
- There are typographic errors on lines 3, 5, 10 and 14 of page 3.
- Online 18 of page 5, it appears that "4A" should be -4B-.
- Section line 7-7 (page 5, line 19 and appropriate figures) should apparently be 4-4 since it should indicate where the section drawing is found.
- There are typographic errors on lines 17 and 20 of page 6.
- There are typographic and idiomatic errors on lines 17, 18, 21 and 22 of page 7.

Applicant is kindly requested to proofread the entire application.

Appropriate corrections are required.

Art Unit: 2833

3. Claims 14 and 15 are objected to claim 14 appears conflict with claim 10 from which it depends and should probably be dependent on a different claim. In addition, the spelling of **from** should be corrected on line 12 of claim 15. Appropriate corrections are required.

4. Claims 1-13 are allowed.

Claims 14 and 15 would be allowable if amended to overcome the objections set forth in this Office action.

The prior art fails to show or teach similar organic electro-luminescence devices including a rampart with a metallic heat sink section or a rampart with a moisture absorbent section.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The organic electro-luminescence device of Sakaguchi, et al. comprises a moisture absorbent section attached to a protective case. Nagayama, et al. '037, Nagayama, et al. '220 and Abe were cited and discussed in the parent application.

6. This application is in condition for allowance except for the formal matters discussed above in paragraphs 1-3.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
